

ABOUT ME

Recent Computer Engineering graduate from Çukurova University, aiming to specialize in AI and data science. I enjoy turning raw data into meaningful insights and presenting them clearly, using tools like Pandas, NumPy, and Matplotlib. Hands-on experience with Python, machine learning, and building RAG-based applications using LangChain, ChromaDB, and LLMs. Quick to adopt new AI tools, with a strong interest in prompt engineering, NLP, and generative AI.

EXPERIENCE

- AI Trainee, Yapay Zeka Teknoloji Akademisi12/2025 – 08/2026 | Remote
 - Built Equa, an AI-powered career and capacity coach for bootcamp students, with a 5-person team in the program's final stage.
 - Developed SME Orchestrator, an AI-powered operations platform for SMEs, in a 5-day hackathon with a 3-person team.
 - Completed hands-on training in project management, web application development, and deep learning.
 - Explored finance, law, and human resources fundamentals through an entrepreneurship track.
- IT Intern, Polat Group Holding09/2025 – 09/2025 | Aydın, Türkiye
 - Worked with the SAP Materials Management (MM) module, supporting procurement and inventory management workflows.
 - Prepared an Approved Vendor List (AVL) report using SAP MM, contributing to the company's supplier evaluation process.
 - Gained direct exposure to IT operations and corporate workflows within a large-scale organization.
- Data Science Intern, BudunAI07/2025 – 08/2025 | Aydın, Türkiye
 - Built an end-to-end analysis pipeline on 14,246 TÜİK inflation records (2005–2025) across 12 expenditure categories, covering trend, seasonal, and correlation analysis.
 - Developed a linear regression model with scikit-learn to forecast future inflation, and identified a 0.997 correlation between food and healthcare price categories.

PROJECTS

- Ops-Genius – RAG-Based Customer Support System02/2026 – 06/2026
 - Built a customer support system based on Retrieval-Augmented Generation (RAG) architecture, using LangChain, ChromaDB, and the Llama 3.1 8B model via Groq API.
 - Selected a focused subset (300 rows, 3 intents) from the Bitext Customer Support dataset (26,872 rows, 27 intents) under academic supervision, and built a synthetic knowledge base of 5 policy documents.
 - Improved response accuracy from 55.6% to 98.7% through document enrichment, placeholder preprocessing, and prompt optimization, gaining hands-on experience in retrieval evaluation and prompt engineering trade-offs.
 - Deployed the system in two forms: a standalone Streamlit chat interface and a full e-commerce site with an embedded AI support widget, powered by FastAPI.
- SME Orchestrator – AI Operations Platform for SMEs05/2026 – 05/2026
 - Built an end-to-end AI platform for managing operational processes at Turkish SMEs, as part of a 3-person team during a 5-day hackathon.
 - Set up a full-stack architecture with FastAPI and Next.js, integrating AI models running on Groq and Ollama, and gained hands-on experience coordinating a multi-service architecture under a tight deadline.
 - Added WhatsApp integration, giving SME owners access to the platform through a channel they already use daily.

EDUCATION

Computer Engineering, Çukurova University

2021 – 2026

SKILLS

AI Tools Cursor, Claude, Antigravity, Gemini, ChatGPT, Stitch	Programming Python (data analysis, machine learning), SQL, C, C++
AI & LLM LangChain, RAG (Retrieval-Augmented Generation), ChromaDB, LLM Integration, Prompt Engineering	Data Science & Machine Learning Pandas, NumPy, Scikit-learn, Machine Learning Algorithms (Regression, Classification, Clustering), Data Preprocessing, Exploratory Data Analysis (EDA)
Backend & Web Development FastAPI, Streamlit	Data Visualization Matplotlib, Seaborn
Tools Jupyter Notebook, Git, GitHub, VS Code	

CERTIFICATIONS

- Kairu Data Science Bootcamp (Burscamp 2025) – Kairu
 - Project Management Certificate – Google (Coursera)
- Artificial Intelligence and Machine Learning Certificate of Achievement– YÖK Veri Analizi Okulu
 - Entrepreneurship, Web Development, and Deep Learning Training – Yapay Zeka Teknoloji Akademisi (YZTA)

LANGUAGES

English Intermediate	Turkish Native
